

1 Cut out the parts and fold them along the fold lines on each.

2 First, make a mountain fold along the valley fold line at the center of the base. Then, cut a slot into each of the V-shaped lines on either side.

3 Insert the tree and Santa Claus (including their glue tabs) into each of the corresponding slots on the base, and attach them to the board from its back.

4 Attach both the front and back covers and you're done!
*You can decorate the card or envelope with your favorite stickers, to make your card even more original!
